

K-LOVE has been a positive influence in a negative world which we live in. While many secular stations promotes sex and violence, I have found K-LOVE to be a safe haven where I can be exposed to a more positive view on life in general. If K-LOVE were to be displaced on an LPFM broadcaster, I feel it would further deteriorate the moral conditions that America is facing now. Remember that which we teach in the class room (or life) will eventually become part of government operations. Finally, with the violence and insanity that our youth face today, some of them will never find the peace they are looking for, nor the moral compass to guide them, unless stations like KLOVE continue to transmitt to them; giving them hope that there is more to life than just the daily grind. Thank you for listening to me.
